OFFER 5 ULTIMATE AIR/ELECTRIC HYBRID PACKAGE

A compact and exceptionally powerful brushless electric motor, its main applications are fillings, prosthetics and prophylaxis. Its short length and light weight are especially ergonomic and allow you to work with ease.

Speed increasing instruments (Synea contra-angle handpiece WA-99LT) are ideal for cavity and crown preparation, and also for removal of fillings and bridges. The small head with Penta Spray provides clear, all-round views when working on dental enamel and makes access to the treatment area much easier.

INCLUDES

- 1 x EA-52LED integrated electric motor
- 2 x Synea WA-99LT highspeed Contra-Angles
- 3 x Synea WA-56LT lowspeed Contra-Angles
- 3 x Synea TA-97CLED+ small head or TA-98CLED+ standard head highspeed Turbines
- 1 x RQ-24 Roto-Quick coupling

RRP \$21,096
